SUMMARY

I am a passionate Frontend Developer with expertise in **React.js**, crafting high-performance, responsive, and user-friendly web applications. With a strong foundation in **JavaScript**, **Next.js**, and modern **UI frameworks**, I specialize in building scalable solutions that enhance user experience. It is very important to me to build a career of stability, security and opportunity.

WORK EXPERIENCE

React Developer @AtomEdge Soft

March 2024 - Present

- I am currently working as a React Developer at [AtomEdge Soft], where I develop dynamic, user-friendly web applications using React.js.
- My responsibilities include **creating efficient components**, **integrating API**, **optimizing performance**, and **collaborating with cross-functional teams** to deliver high-quality solutions.
- I leverage **React.js** and **Redux** for building dynamic, responsive UIs, ensuring efficient **state management** and performance.
- Actively engaged in **Agile Scrum processes**, attending daily **stand-ups**, **sprint planning**, and **retrospectives** to contribute to team goals and project deadlines.

PROJECTS

HRMS(AURA)

- Developed Attendance and Leave Management modules, with request submissions routed to primary and secondary approvers based on settings
- Then in the Employee Details module, allowing the addition of employee information, role assignments, and the ability to activate or deactivate members.
- Integrated the module with other systems for seamless data management and user control.

Payroll (AURA)

- Developed the Payroll module by importing data from HRMS and configuring basic settings for accurate salary calculations and deductions.
- Ensured smooth integration with attendance and leave data for real-time payroll updates.
